His footnotes can be hilariously funny to read and his "Funder's laws" mentioned in the book are very insightful. It may be difficult to understand for someone who is new to psychology. It is my favorite psychology book I have read and one of the few I reread.

Amazon com The Personality Puzzle Seventh Edition

I am reading Dr. Funder's Personality Puzzle as part of a self designed program to prepare myself for graduate level course work in counseling psychology and my own self development. I have found the text an enjoyable, thorough, interesting, and most of the time, reasonably easy read especially if you have been exposed to a general psychology course.

The Personality Puzzle David Funder 9780393265149

Funder's book is a nice example of what a psychology textbook ought to be: entertaining, witty, objective, concise, and informative. Rather than being dry, technical, or long-winded, the book is fascinating and intelligent (and this is coming from someone who had no interest in personality psychology and used her textbooks as a quick way to fall asleep in the middle of the day).
